

ASCO® Breakthrough™

August 25-27, 2022 | Yokohama, Japan | #ASCOBT22

2022 ASCO Breakthrough will offer interactive education and scientific sessions on the most advanced technology in oncology—artificial intelligence (AI), new diagnostics, delivery of care, and more.

Hosted in the most technologically advanced region in the world, 2022 ASCO Breakthrough will bring together international leaders in oncology medicine, research, and health technology to explore cutting-edge science and a unique application of technology that is transforming cancer care with remarkable new therapies.

Featured Speakers

Hiroshi Mikitani, CEO of Rakuten Medical, Inc., *Innovative Technology in Oncology*

Maryellen Giger, PhD, the A.N. Pritzker Professor of Radiology/Medical Physics at the University of Chicago, *Artificial*

Hans Clevers, MD, PhD, the Hubrecht Institute for Developmental Biology, *Organoids Technology*

HRH Princess Dina Mired, Honorary President of The European Organisation for Research and Treatment of Cancer (EORTC), *How Science, Technology, and Practice Can be Enabled in Low-and Middle-Resource Settings*

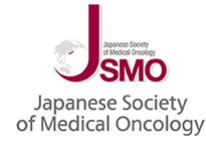

Program Highlights

- Drugging the Undruggable
- Innovative Trial Design
- Impact of COVID-19 on Practice
- Novel Therapeutics
- Precision Care With Artificial Intelligence
- Microbiome and Cancer Care
- Next-Generation Multi-Omics Technology
- Telemedicine

Key Dates

- ▶ **February 9, 2022:** Abstract Submission Launches
- ▶ **April 2022:** Hotel Reservation and Early Registration Opens
- ▶ **April 12, 2022:** Abstract Submission Deadline
